

You too can make crap-tastic valentines!!!

What you'll need: scissors, paper (so you can print this page out) and double stick tape.

Step one: Print out this page.

Step two: Cut out the rectangles. Only cut on solid lines. Dotted lines are where you will be folding.

Step three: Now that you have four small rectangles, fold them all on the dotted lines with the letters facing up. Like this:

Step four: This part is important. Double stick tape the matching letters together. Make sure the letters face the correct direction.

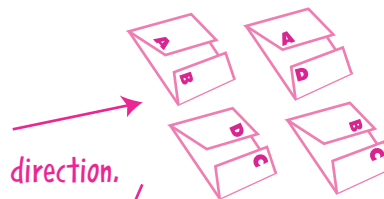

If one A is sideways turn it to match the direction of the other A. When you are done it should look like this:

The neater you are matching up the corners, the better it will fold. If it doesn't work then give up.

I told you it was a big pain in the neck. Refer to my my old January 17th post for directions on how to fold.

Step five: Draw on your own valentine's day messages and you're done. Tah Dah!

Bonus Points: Take a picture of your creation and email it too me. That would really make my day.

(letters are taped underneath)
